A WORLD OF EQUAL OPPORTUNITIES IN EDUCATION

Speaking at DISMUN 2022

**Deira International School – UAE
Conference**

By Mr. Festo Nduwayezu, MAIR
LHI Founder and Chairperson

DISMUN: Deira International School Model United Nations

- In a world where globalization and interconnectedness are exponentially growing, the state of being equal remains a struggle.
- **Equality in education**, equality in healthcare, equality in incomes, and gender equality are a few examples of fundamental equalities that must exist in our world but currently do not.
- How many years will we wait till every child receives quality education?
- How many more lives will be lost due to limited oxygen tanks in hospitals?
- How many times will the gender and racial pay gaps have to be exposed so we are aware of it?
- We must stop the trend of witnessing inequality and not taking actions to solve them.
- Instead of having More and Less Economically developed countries, lets create a global economy with a one-world currency.
- **DISMUN 2022 aims to guide delegates to understand current global inequalities and to aid them with constructing long-term global solutions, to create a world of equal opportunities.**

Inequality Meaning

- **Inequality refers to the phenomenon of unequal and/or unjust distribution of resources and opportunities among members of a given society**

CAUSES OF INEQUALITY

- Causes of inequality can be many but on top, there is:

LACK OF EMPOWERMENT

- ❑ POOR / NO EDUCATION
- ❑ POOR /NO INHERITANCE
- ❑ BAD POLITICAL SYSTEM
- ❑ POOR/NO SOCIAL SERVICES

LACK OF
EMPOWE
RMENT

SOLUTION TO INEQUALITY

- **EMPOWERMENT of the weak.**

Important **empowerment** is
acquired from

EDUCATION

SDGs #4

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

- **EDUCATION**

1. **FORMAL EDUCATION**
2. **INFORMAL EDUCATION**
(Trainings, Behavior Change Communications, etc.)

- ECONOMICALLY**
- POLITICALLY**
- SOCIALLY**
- MENTALLY**

Education is a Fundamental Human Right.

EQUAL OPPORTUNITIES IN EDUCATION

- **Will be given by:**
 - I. Political Leaders
 - II. International Community
 - III. NGOs
 - IV. Communities
 - V. **Me & You.**

- **And the time is now!**

Our Responsibility

- “We have a collective responsibility to ensure **education** plans take into account the needs of some of the most vulnerable children and youth in the world – refugees, internally displaced children, stateless children and children whose **right to education** has been compromised by war and insecurity. *These children are the keys to a secure and sustainable future, and their education matters for us all.*”
- - António Guterres, UN General Secretary

EXAMPLES OF INEQUALITY IN EDUCATION

- **Education** is vital for helping children develop healthily to become productive members of society.
- However, **refugee children are 5 times less** likely to attend school than their counterparts. Furthermore, they are likely to have experienced trauma and require further psycho-social support.
- Without intervention refugee children, such as those at the Kyaka II refugee settlement in Uganda, are set to continue living a life of **poverty**, with a potential future **of drugs, criminal activity, and prostitution.**

Vulnerable refugee children in Kyaka II Refugee Settlement, Uganda who need education

LHI Contribution to Education of vulnerable Children

- [Let's Help International \(LHI\)](#) has created a program in order to aid uneducated vulnerable children. This program provides children at the Kyaka II refugee settlement in Uganda with the financial, material and psycho-social support they need to not only attend school, but to finish at least until the end of the primary level. By receiving an education, these children have a brighter future, with the possibility to fulfil their dreams of becoming educated professionals, such as doctors or teachers, and further benefiting their community.
